If you want to search an exporter company to see their customers, type the company name on the home page at Exporter area, and click search (for ex, finding Microsoft's customers)

If you want to search an importer company to see their suppliers, type the company name on the home page at Importer area, and click search (for ex, finding Microsoft's suppliers)

If you want to search product definitions, type the product name on the home page at Product Name area, and click search (for ex, finding buyers and sellers of XBOX)

#### 4. Filtering Company Names

- Due to the data collected from various countries, and as each country has it's own attitude to release the data, shippers, banks, customs agents, or even empty / meaningless names are sometimes seen as importer
- Examples are;
  - TNT / Fedex / UPS / Commerzbank / HSBC / (blank) / . / # ....
- If you are looking for importers instead of analyzing shipments, there are 2 options on the search area where you can exclude
  - o Blank company names
  - And logistics, customs brokers and finance companies

IMPORTER	RS SEARCH ENGINE				
and the second	Start Date		End Date		
	01.01.2020		31.12.2020		
	Search By Enter a valu	e			
and the second second	PRODUCT DETAIL - paracet	amol			
	Countries				
-	Angola			. v	
	Include blank companies				
and the second s	<ul> <li>Include logistics, customs brokers and finan</li> </ul>	ce companies			
	How Can I Perform Search?		٩	Soarch	
Q Product Dete paracei	tamol 3		В	Download Results	
Number of S	hipments	L	Number of Importing Companies		

- When you click the first box "Include blank companies", results on the page and also excel file will include some shipments where importer name is not visible
- When you click the second box "Include logistics, customs brokers and finance companies", results will include shipments arriving to logistics companies etc. so final buyer is generally not clear.

Here is a chart as an example, demonstrating the importer names you will see in each 4 options:

IMPORTER NAMES BOTH CLICKED	EXCLUDE BLANK COMPANIES	EXCLUDE LOGISTICS BANKS ETC.	EXCLUDE BOTH
Mercedes	Mercedes	Mercedes	Mercedes
Renault	Renault	Renault	Renault
FEDEX	FEDEX	FEDEX	FEDEX

Toyota	Toyota	Toyota	Toyota
#	#	#	#
TOGG	TOGG	TOGG	TOGG

#### 5. Making multi-variable searches on the system

For all searches, date and importing country are mandatory variables while you have to choose whether to search by HS Code, Company name of Product detail. However, if you want to search the system with more than 1 variable, you can go to Advanced Search Area

Qualified Importers & Export Worldwide Are Just A Click A	
HS Code Product Name impertar Exporter translation Enter a product name or 6 digit HS COOL (Example: Apple or 080810) CARENT TEXNOLOJUSTIAN DAHA ÇOK ENERJÎ DAHA ÇOK GÜÇ	
Z30         Z3,074,084         17,236,841         2,106,577,155           Countries         Importer Companies         Exporter Companies         Bill of Lading & Shipment Details	
Petkim C Eczosbaşı BRIÇA Câmara	

You can select dates and importing country for your search which are mandatory, and then add the variables you like to search from Add Search Field button

and the second second			Q Search	

#### 6. What to care when searching elective variables

#### HS CODE SEARCHES

- As known, the first 6 digits of HS codes are common all over the world representing the same product, and millions of products are categorized under six thousand 6-digit HS codes. That's why some HS codes directly represent a commercial product clearly while others include a great number of different products. If you are searching a non-clear 6-digit code, care to add another variable to get more effective and accurate results. Examples of code types in terms of clearance;
  - Clear codes
    - 07 02 00 : Tomatoes
    - 15 09 10 : Olive oil, virgin
    - 85 16 31 : Hair dryers
  - Non-clear codes
    - 01 06 90 : Other live animals
    - 55 12 99 : Other woven fabrics of synthetic fibers
    - 84 26 19 : Cranes

#### COMPANY NAME SEARCHES

- Company names are not internationally standardized all over the world, mainly due to additions at the end
  - Microsoft Inc / Microsoft Corporation / Microsoft Corp
- > There are several different companies having common phrases
  - Apple Inc / Apple Film / Apple Fashion / Apple Fasteners
- Official company name is the data shown on the official customs forms, and some companies own a separate foreign trade company for international trading
- > Brand names are not visible as a company name on official forms
  - Milka is the brand name while official trader is Mondelez International

#### PRODUCT DETAIL SEARCHES

- Searching product details is not typical to searching a query on Google, this data is the definition area filled by exporters/importers on the customs declaration forms, so, please consider what an exporter would write to the definition on the official forms when exporting / importing
  - You don't write "fruit" when exporting Apples, you write "Apple", even you generally write more details defining the product traded such as "fresh apples" or "premium green apples, size 125/138"
- Some common words used in different industries could bring very unconnected results, so, use as unique definitions as possible in your industry to find best results;
  - If you search "mouse", you will get results of computer pointing devices, live animal trade, even some textile products such as "Mickey Mouse t-shirt" etc.
- Similar with company names, product definitions for a single product are also not standardized. For ex, if you export an iPhone, you can write "cell phone" or "smart phone" or even only "iPhone 13S". All these searches will generate different results
- Since data is collected from 55 countries customs where official languages are different, all the data is not in English. Irregular languages are listed below, so when searching company names and product definitions, please consider translation or local language spelling of your search criteria. If you search Apple (fruit);
  - о Russia and CIS countries' data is in Russian (яблоко)
  - о Ukraine data is in Ukrainian (яблуко)
  - Vietnam data is in Vietnamese (qua tao)
  - South American data is mainly in Spanish and some in Portuguese (manzana / maçã)
  - Some African countries' data is in French (pomme)

#### SOME GENERAL NOTES

The data we have, namely ~2 billion lines of transactions collected from 55 countries, is mainly in the following format:

EXPORTER	IMPORTER	HS CODE	DEFINITION
HON HAI SHENZEN	SOLTRAP ENERGY	853390 <mark>0025</mark>	MINI CIRCUIT BREAKER
*	*	*	*
*	*	*	*
*	*	*	*
*	*	*	*
*	*	*	*
*	*	*	*
*	*	*	*

- However, there are some countries who do not share HS codes, or definitions, even for some data, importer or exporter name is missing. So, use all alternatives searches to get every single result which would help you find what you are looking for.
- If you cannot find enough results for a specific product in a country, you can also consider searching
  - Similar products (such as apple, pear, quince, etc.., which are believed to be traded by the same company at the same time)
  - Complementary products (such as cell phone camera and cell phone battery, which are both required to produce a cell phone)
  - Input and output analysis (such as search furniture exporters to sell wood glue, which is required to produce furniture)
